

HOW TO: Dropped Stitches

To pick up a dropped stitch from several rows below, you need a crochet hook. Pick up a dropped stitch from several rows below by drawing the unworked strand through the dropped stitch.

In stockinette stitch: To rescue a dropped stitch from the knit-side of stockinette stitch (if the purl-side is facing, turn it around), reach through the dropped stitch with a crochet hook and pick up the bottommost strand in the ladder. Then, pull the strand through the stitch toward you to form a new stitch.

Repeat this maneuver to pull each successive strand in the ladder through the loop until the last strand has been worked.
